EDUCATION

Eastern Michigan University | GPA 3.98

Ypsilanti, MI

Bachelor of Science: Computer Science

May 2028

Awards: Presidential Scholarship(full-ride academic scholarship), Rising Star Award, Dean's List

Relevant Coursework: Data Structures & Algorithms, Intro to Web Programming, Intro to Object-Oriented Programming

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java

Frameworks/Libraries: React.js, Next.js, Express.js, Node.js, FastAPI

Tools/Technologies: Jira, Firebase, GitHub/Git, MongoDB Compass

Databases: MongoDB, PostgreSQL

PROFESSIONAL EXPERIENCE

Blue Cross Blue Shield | Incoming *Full-Stack Developer IT Intern* | Detroit, MI

May 2026-Aug 2026

Jetzy | *Full-Stack Developer intern* | Remote

Sep 2025-Dec 2025

- Developed responsive, accessible web pages using React, Next.js, and Tailwind CSS, translating Figma design mockups into functional, user-friendly interfaces and building 12+ components, pages, and full-stack features
- Optimized MongoDB queries, improving database lookup efficiency and reducing page load times by ~25%
- Built full authentication flows using Next.js server-side routes and API handlers, including securely querying MongoDB and validating user credentials

AccelerateKID | *Lead Tech Ed Instructor Intern* | Novi, MI

Mar 2025-Sep 2025

- Instructed 60+ students (grades 4–9) in Python, JavaScript, and Java, achieving a class project completion rate of 95%
- Quickly mastered new technologies to teach diverse programming topics effectively
- Gained hands-on experience with debugging, code review, and providing real-time feedback

PROJECTS

AI-Generated Coding Quiz Platform | *React, TypeScript, FastAPI, SQLAlchemy, OpenAI*

- Developed a full-stack web application that generates AI-powered multiple-choice coding challenges using OpenAI
- Achieved sub-millisecond response times for endpoints and ~5ms database query latency through optimized SQLAlchemy queries
- Implemented AI challenge generation with ~2.05s end-to-end latency, where ~97% of request time was attributed to AI inference
- Built a type-safe React + TypeScript frontend and a high-performance FastAPI backend with REST APIs, keeping non-AI processing under 15ms

Spotify Playlist Generator | *React, Node.js, JavaScript*

- Developed a web app that lets users generate and save custom Spotify playlists, reducing Spotify playlist creation time by 30%
- Integrated OAuth 2.0 and the Spotify Web API to securely authenticate users and dynamically create, fetch, and manage playlists
- Built a responsive, component-based frontend using React hooks to support real-time user interactions
- Implemented production-grade logging and performance monitoring, achieving 0–2 ms server-side latency for cached routes and 100% successful request handling.

AI Learning Platform | *React, TypeScript, Next.js, Python, Supabase*

- Led the frontend for a real-time voice AI coding tutor, enabling students to talk with an AI assistant that sees their code
- Developed core frontend features using React and Next.js, including the design and implementation of a custom Monaco Editor–based terminal interface and a responsive landing page optimized for user engagement
- Managed and completed 10+ tasks through Jira while actively contributing to weekly team meetings to align priorities

LEADERSHIP & PROFESSIONAL DEVELOPMENT

Management Leadership for Tomorrow | *Career Prep Fellow* | Washington, D.C.

Nov 2025-Present

- Accepted into a selective 18-month professional development program for high-achieving college students
- Engaged with industry partners (Capital One, Apple, Google) to gain exposure to tech career pathways and emerging talent needs
- Participate in conferences hosted by industry leaders such as Deloitte, LinkedIn, and Target

National Society of Black Engineers | *Public Relations Officer* | Ypsilanti, MI

Apr 2025-Present

- Analyzed engagement metrics from outreach efforts to refine promotional strategies and improve turnout for chapter events
- Played a key role in organizing professional development events, info sessions, and panels for underrepresented students in tech
